📍 Anamnagar, Kathmandu

Technical Skills

- Language: *Python, Pandas, NLP, CV, HTML, CSS, MySQL, Oracle, JAVA*
- Framework: Django,
- Tools/ Applications/ Software: VS code, Jupyter Notebook, Power BI
- Operating System: Windows

Soft Skill

- Time management
- Team working
- Decision making
- Communication

Education Background

- **BSC(HONS) COMPUTING**
  Islington College
  London Metropolitan University
  Kamal Marg, Kamalpokhari, Kathmandu
  2021-Present
- **SLC**
  Trinity International College
  Dillibazzar, Kathmandu
  2019-2021
- **SEE**
  Occidental Public School
  Anamnagar, Kathmandu
  2019

Objective

I am confident, hard-working, creative, proactive, and eager to continue growing and evolving in my profession while keeping up with the latest technologies available. I am enthusiastic about pursuing my career in the field of data and have a strong passion for working with data.

Projects

Text Classifications

Languages used: Python

IDE: Kaggle

- ML algorithm was used to determine the class/category in which the text likes
- Determining whether the text is true or false.

Image Classifications

Languages used: Python

IDE: Kaggle

- *identifying the category in which the image lies, (mainly determining whether the image of plant is ill or not.)*

Langchain

Languages used: Python

IDE: Kaggle

- *PDF reader*

Experience

22 - August 2023 - 22 December
Kathmandu, Nepal

AI - Intern
Code Himalaya

- *Implementation of Python libraries like pandas for Data Analysis matplotlib and seaborn for data visualizations*
- *ML algorithm*
- *NLP for text Classification*
- *CV for image processing and image classifications*
- *Langchain for reading PDF.*

.

Achievements

LinkedIn Learning
Pandas, NumPy, matplotlib

AWS certification
Cloud Foundations and Machine
Learning.
